

eOffice Launch Press release from Mines & Geology Department

As the technology importance is growing rapidly in the Government endeavors, the Department of Mines & Geology has taken a significant step towards implementation of eOffice MMP (Mission Mode Project) in the Head Quarters.

The implementation of e-office improve the quality of administration and to reduce the delay in file processing. By making the application into live, for speedy disposal which, establishes the transparency and accountability among the officers in the Department.

eOffice ensures better security with Digital Signature Certificate and encryption while moving the files from one user to another. The application facilitates in generating the MIS reports, and enables Department officials to review the daily file movement/activities and can assess the performance of the Officer / Employee.

The implementation of eoffice in the Department is being made in coordination with the ITE&C Department. The Principal Secretary to Govt., Industries & Commerce Department & ITE&C Dept., inaugurated the eOffice in the Department on 17.9.2018. The Department of Mines & Geology is implementing the eOffice System with effect from 1.10.2018.

eOffice a key step towards better administration with the technology enablement.

B.R.V. Susheel Kumar
Director,
Department of Mines & Geology
