

Further info from Jagityal Meeting

As part of Jungle bachao jungle Badhao movement as directed by Honble CM , a massive interaction programme involving all departments, newly elected sarpanches , habitual forest offenders , VSS members, sawmill owners carpenters etc was held in Jagityal to discuss the modalities of forest conservation and preparation of strategic action plan .the meeting was attended by M C Pargaien Additional PCCF, district collector sarath, SP Sindhu Sharma and all departmental officers. All the newly elected sarpanches while interacting assured to deliver sincerity for environmental conservation as entrusted under the Panchayat Act . SP Jagityal addressing the gathering urged all the departments to take equal interest in protection and development of forests besides assuring full support to forest Department as and when required . The DC Sarath requested all departmental officers to ensure their active involvement in the areas of protection of existing plantations , providing alternate livelihood to habitual smugglers and those person dependent upon wood selling , providing gas connections to needy people , priority to ROFR villagers in taking up horticulture programme etc. M C Pargaien Additional PCCF stresses the continuity of active involvement and cooperation of line departments specially police department so to act in comprehensive manner to tackle the issue of forest degradation due to felling and encroachment and also protection of existing forest and wild life . More than 600 people participated in this programme . The programme was organised by DFO Jagityal .

In fact Jagityal has taken lead in this regard and Forest Dept has organised such a massive programme in a short call considering its importance and need of immediate interdepartmental coordination in view . The mandals having potential of forest destruction and smuggling like sarangapur Kodmial and Raikal were given top priority in making comprehensive action plan duly making concerned Forest Range Officer , Police SHO, MPDO and MRO fully responsible for effective conservation and development .
